

# SMARTCON

## Stop Silent Leaks Before They Drain Your Budget.

Prove it first. 90 days, zero risk, zero upfront cost.

Smartcon's in-tank monitoring system catches leaks before they inflate utility bills. Drop-in, battery-powered sensors install property-wide in a day and deliver real-time, room-level alerts while an independent LTE gateway handles connectivity to minimize IT involvement.

### Choose the model that fits your budget

- **CapEx:** typical payback in ~6 months
- **OpEx:** often delivers day-one ROI with savings covering the service fee

- **Real-Time Monitoring.**
- **Verified Savings.**
- **Continuous Protection**
- **Same Day Install.**
- **Works Without Touching Your IT Network.**
- **No Wires**
- **Battery Operated.**
- **Instant Savings Day 1 ROI**
- **5+ year battery life**

Scan to schedule your 15-minute assessment and start your 90-day trial.
